

# MULTI SIZE & UNIVERSAL FATBOYS®

The development of the FATBOY® Sewer Tap has allowed Inserta Fittings to produce two new families of Inserta Tees that reduces your inventory and allows you to quickly service your customers.

**MULTI-SIZE FATBOYS®:** *FATBOYS® targeted at specific sizes and types of pipe.*

The Inserta Tees are targeted to tap specific sizes of pipes with minimal penetration and they are watertight & air-testable. Available in 4" & 6" sewer outlet that fits both SDR 35 & 26.

Multi-size parts are identified by "MF " in the part number.

### Category 1

SDR 35 mainline  
4" x 6" SDR 35  
4" & 6" x 8" SDR 35  
4" & 6" x 10-12" SDR 35  
4" & 6" x 15-18" SDR 35  
4" & 6" x 21-27" SDR 35

### Category 2

SDR 26 mainline  
4" x 6" SDR 26  
4 & 6" x 8" SDR 26  
4" & 6" x 10-12" SDR 26  
4" & 6" x 15-18" SDR 26  
4" & 6" x 21-27" SDR 26

### Category 3

Concrete and Clay  
4" x 6" Concrete & Clay  
4" & 6" x 8" Concrete & Clay  
4" & 6" x 10-12 ditto  
4" & 6" x 15" up ditto  
4" & 6" x 30-36" SDR 35

**UNIVERSAL FATBOYS®:** *FATBOYS® that fit wide ranges of Solid Wall pipe such as PVC SDR 35, 26, C900, IPS, Concrete, Clay, and solid wall HDPE.*

These are the easiest Inserta Tees to stock for the most common sewer connections.

**Advantage:** small inventory, versatile applications, watertight and air-testable, 10 psi and higher

**Disadvantage:** slightly more penetration into certain pipes than a targeted Multi-Size FATBOY®

Universal FATBOYS® have "UF" in their part numbers

4P26 UF 6-12" pipes  
4P26 UF 15+ pipes

6P26 UF 8-12" pipes  
6P26 UF 15+ pipes

Universal FATBOY® installed into 8" SDR 35

Universal FATBOY® installed into 8" concrete pipe
